“ I have many great memories of Eddie, he was married to my sister Jean and he was really a part of each person in our family. I had an important event to attend and I didn't know that what was happening in my life was important to Eddie too. He called me early that morning and asked me what color limousine I wanted to ride in that day. He was there on time...and there are many reasons to love Eddie just because of who he was.

Sweet Rose
