“ There's so many memories too many to choose one. What I loved about us was how effortlessly we had fun together. It didn't matter what we were doing It could be a night drive, laughing over something silly or even doing nothing at all. We were anything but ordinary. You always made me feel safe and loved. And you knew how to make my whole day better. We share so many memories, inside jokes, quiet moments, life and we shared big dreams. All of them I will hold close to my heart bc they mean the world to me now. Loving you was such a huge part of my life so you are still my best friend, my heart, my love and a light in my life that will NEVER fade. I just pray you knew how much you were loved here and how much you're missed. Nothing is the same without you. Rest easy I love you xoxoxoxo Bella
